

HAFIZ MUHAMMAD INAM UL HAQ

.NET TECHNOLOGY CONSULTANT | ASSOCIATE SOFTWARE ARCHITECT

Lahore, Pakistan • +92-322-8002441 • inamgcu@gmail.com • <https://www.linkedin.com/in/hafiz-inam-ul-haq-605b611a/>

PROFESSIONAL SUMMARY

Results-driven .NET Technology Consultant and Software Architect with 12+ years of experience designing and delivering high-performance, cloud-native solutions across enterprise, mobile, and web platforms. Deep expertise in the Microsoft technology stack — .NET Core, ASP.NET, Azure, and SQL Server — complemented by a strong track record of leading cross-functional teams, driving architectural transformations, and aligning technical delivery with business outcomes. Recognized for translating complex requirements into scalable architectures, cultivating engineering excellence, and championing Agile best practices.

CORE COMPETENCIES

Enterprise Architecture	Cloud Solutions (Azure)	.NET / ASP.NET Core	RESTful API Design
Agile / Scrum Leadership	CI/CD & DevOps	Data Engineering (ETL)	Team Mentoring & Coaching

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, jQuery

Frameworks & Libraries: .NET 8, .NET Core, ASP.NET Core, Web API, Entity Framework Core, Xamarin, Universal Windows Platform (UWP), MVVM

Cloud & DevOps: Microsoft Azure (App Service, Functions, Service Bus, Event Hub, Blob Storage, Data Lake, Data Factory, Azure Analytics, API Management), Docker, CI/CD Pipelines, Azure DevOps

Databases: Microsoft SQL Server, T-SQL, Stored Procedures, Query Optimization, Database Design, Entity Framework

Data & ETL: SSIS, Azure Data Factory, USQL, Power BI, Data Integration, Data Transformation, Data Warehousing

Architecture & Design: Clean Architecture, Domain-Driven Design (DDD), Microservices, Event-Driven Architecture, SOLID Principles, Design Patterns, REST, CQRS

Project Management: Agile, Scrum, Kanban, Sprint Planning, Backlog Grooming, Risk Management, Cross-functional Team Leadership

Tools & Platforms: JIRA, Confluence, Git, GitHub, Azure DevOps, SharePoint, Visual Studio, Visual Studio Code, Postman

PROFESSIONAL EXPERIENCE

tkxel

December 2025 – Present

Technology Consultant — .NET

- Architect and deliver scalable, secure enterprise solutions using .NET Core and ASP.NET Core, ensuring alignment with client's long-term technology roadmaps.
- Design and optimize RESTful APIs, orchestrate third-party system integrations, and tune SQL Server data access layers for peak performance.
- Lead cross-functional collaboration across system design, code reviews, CI/CD pipeline configuration, and cloud-based deployments on Azure.

Ebryx

August 2023 – November 2025

Principal Software Engineer

- Led end-to-end development of enterprise-grade web applications on .NET 8, establishing technical standards and architectural patterns for the engineering team.
- Served as the primary technical liaison with clients, translating business requirements into actionable engineering plans — consistently achieving 100% client satisfaction.

- Introduced Clean Architecture and domain-driven design principles, significantly improving code maintainability and onboarding velocity.

Confiz Limited

March 2014 – July 2023

Associate Software Architect

- Architected and delivered a cloud-native BI platform using Azure Data Lake, Azure Data Factory, and USQL, automating multi-source data transformation and enabling self-service analytics via Power BI — reducing reporting cycle time by over 60%.
- Spearheaded an architectural overhaul of a critical BI system (multi-source REST APIs, Web Jobs, SSIS, Power BI), improving overall performance by 75% and resolving client escalations.
- Led an RPA initiative using Microsoft Power Platform, automating complex business workflows for a major enterprise client, delivering measurable productivity gains.
- Directed Agile delivery for multiple concurrent projects (web, mobile, back-end, cloud), facilitating daily stand-ups, sprint planning, and retrospectives to ensure on-time delivery.
- Developed mobile applications using Xamarin, Universal Windows Platform (UWP), and MVVMCross; maintained a shared codebase across iOS, Android, and Windows.
- Established and enforced engineering standards through code review checklists, coding guidelines, and mentoring sessions for junior and mid-level engineers.
- Represented the engineering department as a speaker at company-wide technology seminars; recognized with the Value Champion Award.

Karzansoft

August 2013 – March 2014

Software Engineer

- Maintained and enhanced web and Windows desktop applications for a car leasing platform, providing production support and resolving critical incidents.

Code5 Technologies

November 2012 – May 2013

Software Engineer

- Built a Windows Kiosk photo booth application with DSLR integration, real-time filter application, and automated social media upload to Facebook.

KEY ACHIEVEMENTS

- Performance Turnaround:
- Client Delivery Excellence:
- Engineering Culture:
- Recognition:

CERTIFICATIONS

- PL-100 — Microsoft Power Platform App Maker (2022)
- DP-203 — Azure Data Engineer Associate (2022)

EDUCATION

Government College University, Lahore

2009 – 2013

Bachelor of Science in Computer Science (BSCS)
